SUMMARY

A dynamic and detail-oriented Computing student at the African Leadership College, with a keen interest in Frontend Development. Currently pursuing an honors degree, I have honed my skills in HTML, CSS, and JavaScript, essential languages for creating interactive and user-friendly web interfaces. My academic projects, including Web Platform Development and Secure Platform Development, have equipped me with a solid foundation in frontend technologies and frameworks. My internship experience at iSpace Foundation has provided me with practical insights into software development and teamwork, further strengthening my ability to develop responsive and visually appealing web applications. With a passion for web design and a commitment to creating seamless user experiences, I am eager to apply my technical skills and creativity to real-world frontend development challenges.
